Date :	Aug 17 2024	Board :	CBSE
Class :	8	Session /Assignment :	#4
Subject :	Computer Science	Topic :	HTML Basics

A. Solve these two questions

You can use book help

Exercise 1: Create a Simple Webpage

Task: Create a basic HTML page with the following elements:

- A title in the browser tab (using the <title> tag).
- A main heading (using the <h1> tag).
- A paragraph describing your favorite hobby (using the <p> tag).
- Add an image related to your hobby (using the tag).
- Insert a hyperlink to a webpage where more information about your hobby can be found (using the <a> tag).

Exercise 2: Create an Ordered and Unordered List

Task: Create a webpage that contains:

- A heading (using the <h2> tag) called "My Favorite Foods".
- An unordered list (using the and tags) with at least 5 of your favorite foods.
- A second heading (using the <h2> tag) called "My Daily Routine".
- An ordered list (using the and tags) with at least 5 activities you do in your daily routine.
