Topic : Algorithms and Flowchart - Practice 2

Programming

- 1. Write an algorithm to find the sum of first 50 natural numbers and also draw the corresponding flowchart
- 2. Write an algorithm to read a number N from the user and print all its divisors
- 3. Write an algorithm to find the sum of given N numbers and also draw the corresponding flowchart
- 4. Write an algorithm to compute the sum of the squares of integers from 1 to 50 and also draw the corresponding flowchart. Assuming that you have to code the above given problem, show the steps involved in program design.
- Draw a flowchart explaining the process of waking up in the morning.
 [Hint: Use steps Alarm Ringing, Ready to get up, Hitting snooze button, climbing out of bed

Write a Pseudo code for these problems.

- 1. S = (A + B + C) / Y
- 2. Convert from Celsius to Fahrenheit.
- 3. Area of Circle
- 4. Volume of Sphere
- 5. Average speed = Distance traveled / time taken

END
